

Lymphoedema Clinic

Mt Wilga Private Hospital

Mt Wilga Private Hospital, located in Hornsby, has been providing specialised complex lymphoedema therapy for over 25 years. Our service has been internationally recognised as a LE&RN Conservative Care Centre of Excellence in Lymphatic Disease. The only one of its kind in Australia.

Our service

The hospital has a dedicated lymphoedema clinic staffed by experienced therapists who are able to assess and treat lymphoedema. Patients can attend as outpatients for assessment, education, garment prescription and early intervention following cancer treatment. If presentations are severe and require intensive intervention with compression bandaging patients can undertake therapy in the form of a day or inpatient program.

What we treat

We treat patients :

- With swelling following cancer treatment
- At risk of developing lymphoedema following lymph node removal
- With swelling following trauma
- Swelling associated with immobility/ wheelchair dependency
- Chronic wounds associated with swelling.
- Swelling associated with vascular problems

How to Refer

Patients do not require a GP referral to see a therapist as an outpatient. Information regarding previous medical history is always appreciated. Appointments can be made by calling **9847 5345**.

Patients wishing to access admitted services require assessment with our rehabilitation consultant Dr Grace Leong. Referrals should be sent to medicalsuites.MWP@ramsayhealth.com.au

Cost

Our lymphoedema team consists of physiotherapists and occupational therapists. If attending as an outpatient individuals are eligible for rebates as part of their private health care cover. Patients requiring admitted services can access these through their private health hospital cover and will be required to pay their private hospital excess. Email for further details.

Location

66 Rosamond Street, Hornsby, NSW.

Ample on site parking available

Information about Lymphoedema can be found at www.lymphoedema.org.au/

Mt Wilga also offers the Activate Cancer Care Day Program

Aimed at improving physical and psychological health through multi-disciplinary care before, during and after cancer treatment.
